

WPM is a Project Management and Engineering Company supplying Management and Supervision services to Oil & Gas operators, both domestically and internationally. WPM is currently identifying potential clients that may be interested in a **no risk proposal** to operators who have **oil development drilling projects** but are lacking the financial capital to implement these plans and maximize the current Alberta royalty holiday on new producing wells. WPM is also identifying potential clients for **turnkey proposals** (construction to reclamation) with regards to **oilsands core hole** projects. The senior personnel at WPM each have 20+ years of experience in the industry and know how to get a project completed on time and under budget.

**WE TAKE THE RISK & YOUR STRESS
